

A TEAM Class List

(Class prices for Spring 2020 session January - May)

K-1	Music Exploration	\$250
------------	--------------------------	--------------

Monday	9:20am-10:30am
---------------	-----------------------

Taught by: **Becky Beaudoin**

This K-1 class gives children an opportunity to explore all aspects of music, in a high energy, child friendly, age appropriate way. We will learn basic music theory. We will work on pitch by singing songs. We will learn rhythm through movement and games. And we will try instruments from the orchestra and around the world. The semester will end with a performance showing off our newly learned skills.

4-High	Hip Hop/Street Dance Level 2	\$300
---------------	-------------------------------------	--------------

Monday	9:20am-10:30am
---------------	-----------------------

Taught by: **Alejandro Flores**

Come learn the fundamentals of hip-hop/street-dance: popping, locking and breaking. We will be learning the moves/vocabulary along with the dance history and culture. Class is filled with fun exercises and activities to help build self confidence skills and create community within the classroom! By the end of the course we will be showcasing a routine. Children ages 9+ or those with a bit of dance experience will fit right into our level 2 class. Please bring loose fitted clothes (sweats, shorts, t-shirt, and tennis shoes) and some water. Feel free to email Alex at princealifreez@gmail.com if you have any questions!

4-High	ATOM Science: Grades 4-12	\$750
---------------	----------------------------------	--------------

Monday	9:20am-11:50am
---------------	-----------------------

Taught by: **Leslie Herleikson**

A.T.O.M. Science Club is an exciting adventure club where members discover the incredible connections among atoms, molecules, living organisms, and our universe. Through hands-on experiments, group discussions and activities, visual aids, and field trips we study chemistry (atoms), physics (energy and matter and how they interact), biology (life study), and astronomy (the universe). By developing this scientific foundation early in life, members build a solid understanding of science and a love of learning that will stay with them for a lifetime.

To learn more about A.T.O.M. Science Club, and it's 20 years of adventures, visit the website www.atomscienceclub.com.

A TEAM Class List

(Class prices for Spring 2020 session January - May)

K-1	Stories and Art	\$250
------------	------------------------	--------------

Monday	10:40am-11:50am
---------------	------------------------

Taught by: **Becky Beaudoin**

This K-1 class is all about stories, both time honored classics and new favorites. We will listen to stories, tell stories, sing songs, play cooperative games, and create art based on these stories. Children will be encouraged to bring items from home to tell their own stories about and even bring their favorite books to share. Through out the semester children will be improving their reading and public speaking skills, gaining social skills, increasing their vocabulary and creativity, and building friendships and a love of reading.

K-3	Hip-Hop/Street Dance Level 1	\$300
------------	-------------------------------------	--------------

Monday	10:40am-11:50am
---------------	------------------------

Taught by: **Alejandro Flores**

Come learn the fundamentals of hip-hop/street-dance: popping, locking and breaking. We will be learning the moves/vocabulary along with the dance history and culture. Class is filled with fun exercises and activities to help spark their creativity and build community within the classroom! By the end of the course we will be showcasing a routine. Children ages 5-8 or those with little to no dance experience will fit right into our level 1 class. Please bring loose fitted clothes (sweats, shorts, t-shirt, and tennis shoes) and some water. Feel free to email Alex at princealifreez@gmail.com if you have any questions!

A TEAM Class List

(Class prices for Spring 2020 session January - May)

2-5/6	Ecology and Eco Science	\$320
--------------	--------------------------------	--------------

Monday	10:40am-11:50am
---------------	------------------------

Taught by: **Marisa and Team**

We help students discover that, collectively, they can make a difference by taking a conscious and active role in protecting nature through engaging Eco Earth Science Lessons!

We work in small groups, using critical thinking skills, thinking creatively to choose which environmental science issues they feel passionately about and to inspire them with lively discussions and information to support their investigations ending our semesters with A PROJECT of their design!

We provide engaging sustainable and self sufficient science lessons.

We Lead students to collectively act on their concerns and passions through various forms of environmental stewardship for our class base site and beyond!

We provide a direct, safe animal encounter with some combination of reptiles, amphibians, insects, arthropods, and mammals.

Participate in Project-based, Conservation-related Science Lessons that are engaging and fun!

To dive deeper into our topic each week, we have FUN WORK to supplement our learning, with videos children can view at home.

Through participation in our activities, students will have opportunities to share what they are learning, with their fellow students, family, and community members!

2-High	Chess	\$230
---------------	--------------	--------------

Monday	10:40am-11:50am
---------------	------------------------

Taught by: **Micah Rosenheim**

Chess fundamentals

4-5/6	IEW Writing	\$350
--------------	--------------------	--------------

Monday	10:40am-11:50am
---------------	------------------------

Taught by: **Jordan Wolfe**

This class will teach students writing techniques using the Institute for Excellence in Writing curriculum Student Writing Intensive Level A. From IEW.com: "Students will learn how to effectively use a wide range of structural models and stylistic techniques in their compositions, as they write on a variety of enjoyable fiction and non-fiction topics. Included with the student handouts are complete teacher's notes, source texts, assignments, and checklists." Students will have opportunities to share their work with the class and will learn how to give and receive constructive criticism. IEW suggests this curriculum level for 3-5 grade students based mainly on the reading material, pace, and vocabulary level, however the course may also be useful for middle schoolers looking to improve their composition skills.

A TEAM Class List

(Class prices for Spring 2020 session January - May)

4-Middle	Pre-Algebra II	\$400
-----------------	-----------------------	--------------

Monday	10:40am-11:50am
---------------	------------------------

Taught by: **Jing Swales**

This Pre-Algebra course is an introduction to algebra concepts and a review of arithmetic algorithms. The course emphasizes the concepts necessary to be successful in Algebra I and II. The course also helps students develop good mathematical study skills and learning strategies.

In this course, students will be introduced to algebraic concepts through both theory and applications. Students will learn to solve theoretical and real-world problems throughout the course. This course covers topics for preparation for a-g Algebra 1 and Honors Algebra 1, or for students in upper elementary grades with advanced math skills and knowledge.

Topics include:

- Rational Numbers and Equations
- Ratio, Proportion, and Probability
- Percents
- Linear Functions
- Real Numbers and Right Triangles
- Measurement, Area, and Volume
- Data Analysis and Probability

The class will use the Pre-Algebra book from the same series that Ocean Grove uses for a-g Algebra 1, Algebra 2, Geometry. The syllabus may be modified if necessary.

K-High	Lunch Supervision	\$70
---------------	--------------------------	-------------

Monday	11:50am-12:30pm
---------------	------------------------

Taught by: **A TEAM**

A time for students to get together to eat and play. Lunch is NOT provided by A TEAM.

A TEAM Class List

(Class prices for Spring 2020 session January - May)

K-3	Ecology Science Investigations	\$320
------------	---------------------------------------	--------------

Monday	12:30pm-1:30pm
---------------	-----------------------

Taught by: **Marisa and Team**

Participate in Project-based, Ecology and Nature Exploration Science lessons that are engaging and fun! NEW TOPICS in the SPRING!

Investigate and learn in a hands-on, child led, exploration rich, play based, engaging outdoor class. We will learn, explore, observe, journal, craft, create and investigate our earth and our lands, Native cultures, and influential people involved in the preservation of wild places, native plants, native wildlife, water, atmosphere, energy, and human issues, as well as stewardship topics, in our local lands and beyond.

To dive deeper into our topic each week, we have FUN WORK to supplement our learning, videos children can view at home.

Through participation in our activities, students will have opportunities to share what they are learning, with their fellow students, family, and community members.

We will provide a direct, safe animal encounter each week, with some combination of reptiles, amphibians, insects, arthropods, mammals from our home zoo!

K-3	ATOM Science: Grades K-3	\$375
------------	---------------------------------	--------------

Monday	12:30pm-1:30pm
---------------	-----------------------

Taught by: **Leslie Herleikson**

A.T.O.M. Science Club is an exciting adventure club where members discover the incredible connections among atoms, molecules, living organisms, and our universe. (Class prices for Spring 2020 session January - May)

2-5/6 Public Speaking - Movie Monologues \$330

Monday 12:30pm-1:30pm

Taught by: **Ilene Marks**

Practice, practice, practice is the only way to build self-confidence with this important skill. Students enhance speaking skills with peers in a comfortable, comical and nurturing environment. Activities include interviews, poems, jokes, tongue twisters and practicing movie monologues from Disney and other classics. Students learn the basics how to prepare and structure an effective speech and learn tips how to articulate that information clearly. Working on posture, eye contact, body language, volume and making the students feel comfortable. Class designed for new and current Public Speaking students. Lessons last a lifetime.

2-5/6 PE: Multi-sports \$225

Monday 12:30pm-1:30pm

Taught by: **Jennie Gilrein**

Have fun and get some exercise while increasing your athletic ability! We will play a variety of sports through the semester. Each class will also have a brief discussion on qualities of good sportsmanship and healthy habits.

K-High Piano Keyboard and Music Skills \$390

Monday 1:40pm-2:40pm

Taught by: **Ann Wolfe**

Want to learn how to play the piano, read and understand music, get rhythm, match pitch? Join this fun, active, encouraging class. We'll mix it up during the hour to reinforce skills. Using RKM, Reading Keyboard Music method books. All ages welcome, including adults. Jordan Wolfe, Assistant Teacher (Questions? Email annleewolfe@gmail.com)

A TEAM Class List

(Class prices for Spring 2020 session January - May)

2-5/6	Drawing, Cartooning and Comics	\$370
--------------	---------------------------------------	--------------

Monday	1:40pm-2:40pm
---------------	----------------------

Taught by: **Mr. Green**

Fun class for younger students. To start we will focus on using a simple shape, (square, circles,... etc). We will add other shapes to build an object.

This is a wonderful way to help with motor skills and the placement of an object on the paper.

Attention will be given to first draw soft and light, this will help in their ability to edit the needed changes. The students will follow my

step by step instructions to complete the desired drawing. The last half of the class I will instruct on coloring and adding their personal touches to their individual pieces.

2-5/6	Kidz Entrepreneur	\$355
--------------	--------------------------	--------------

Monday	1:40pm-2:40pm
---------------	----------------------

Taught by: **Ilene Marks**

Through art and imagination students explore the power of entrepreneurship by learning steps to create their own business. Projects emphasize critical thinking, problem solving, team building and public speaking skills. Activities include creating a lemonade stand, designing menus and huge advertising signs for a Italian restaurant, brainstorming for a party planning business, distinguishing the many products and services at a pet shop, and a favorite, buying and selling goods at our general store. Class enhances self-confidence, social interaction and creativity. Unique!

2-Middle	Beginning Ballet	\$255
-----------------	-------------------------	--------------

Monday	1:40pm-2:40pm
---------------	----------------------

Taught by: **Michelle Cardoza**

This class is for beginning students of ballet who want to learn the art of ballet dance. Those who have had previous experience of ballet are also welcome. Ages taught in this class are 7-12. Ballet attire for the class includes black leotard, pink tights, and pink ballet slippers. Hair should be neatly pulled back preferable in a bun. There will be an additional fee for costumes that is not included in the price of the class, if a performance is desired.

A TEAM Class List

(Class prices for Spring 2020 session January - May)

K-High	Games!	\$295
---------------	---------------	--------------

Monday	2:50pm-3:50pm
---------------	----------------------

Taught by: **Ann Wolfe**

We will play and learn a variety of games--card games, board games, and more! Kids get to learn how to play by the rules, improve their strategy, recognize how much chance and skill are involved in each game, learn what it means to be a good sport, and have FUN! In this multi-age class, we can have several games running at the same time for different levels.

4-High	Private Guitar Lessons	\$700
---------------	-------------------------------	--------------

Monday	TBD
---------------	------------

Taught by: **Jordan Wolfe**

One on one guitar lessons for students at any level. Private lessons give you the attention you need to learn at your own pace with music you enjoy.

Half hour lessons. Contact for available times. Lessons available Thursdays at the San Jose campus as well as other times.

Ages 8 and up.

Students are required to have a guitar, music stand, tuner, metronome, capo, and picks. Additional materials and literature may be required.

K-3	Jr. Lego Engineering	\$305
------------	-----------------------------	--------------

Wednesday	9:20am-10:30am
------------------	-----------------------

Taught by: **Sharon Foulger**

Students will have the opportunity to pick from several different Lego kits and will be given time to play and interact with their completed builds. As the semester progresses, students may have the opportunity to explore building and coding moving creations using LEGO WeDo 2.0 or they may participate in a class build of themed kits. Opportunities to build from their own imaginations are also available.

A TEAM Class List

(Class prices for Spring 2020 session January - May)

2-5/6	Eco Science Investigations	\$320
--------------	-----------------------------------	--------------

Wednesday 9:20am-10:30am

Taught by: **Bean Team**

We help students discover that, collectively, they can make a difference by taking a conscious and active role in protecting nature through engaging Eco Earth Science Lessons!

We work in small groups, using critical thinking skills, thinking creatively to choose which environmental science issues they feel passionately about and to inspire them with lively discussions and information to support their investigations ending our semesters with A PROJECT of their design!

We provide engaging sustainable and self sufficient science lessons.

We Lead students to collectively act on their concerns and passions through various forms of environmental stewardship for our class base site and beyond!

To dive deeper into our topic each week, we have FUN WORK to supplement our learning, with videos children can view at home.

Through participation in our activities, students will have opportunities to share what they are learning, with their fellow students, family, and community members!

K-3	Pre Public Speaking	\$320
------------	----------------------------	--------------

Wednesday 10:40am-11:50am

Taught by: **Ilene Marks**

Students are introduced to speaking in front of peers in a comfortable, comical and nurturing environment. Activities include practicing rhymes, poems, tongue twisters, jokes and participating in simple skits. Working on posture, eye contact, body language, volume and making the student feel comfortable early with this important skill. Class is filled with laughter and joy and each week the children show more confidence. Lessons last a lifetime.

K-3	Tactile and Hands On Art	\$375
------------	---------------------------------	--------------

Wednesday 10:40am-11:50am

Taught by: **Margaret Hawkins**

In this class we will learn about famous artists' work and life. Each week will be centered around a different artist and we will either recreate one of their most popular pieces or paint an original using that artist's style.

A TEAM Class List

(Class prices for Spring 2020 session January - May)

2-5/6	WAIT LIST Living History-	\$295
--------------	----------------------------------	--------------

Wednesday 10:40am-11:50am

Taught by: **Scott Gentile**

Huzzah! Help bring the Medieval and Renaissance periods to life with these exciting, hands-on lessons! Learning outdoors when the weather permits, lessons may include a Da Vinci day (mechanical knights, painting, and flying objects!), large castle building, jousting, coats-of-arms, commedia dell'arte, designing a quest, Renaissance architecture, catapults, a Renaissance feast, and more! Come one, come all, learn the past, and have a ball!

4-Middle	ESSENTIAL LOGIC	\$200
-----------------	------------------------	--------------

Wednesday 10:40am-11:50am

Taught by: **Mira Betlej**

The purpose of this class is to enrich conceptual and applied math skills in a way that is tailored for individual learning. We will solve various problems by the process of elimination. We will figure out what, where, who and how in the word-based logic puzzles using a list of clues, and we will work on building the ability to think through increasingly complex problems, while being introduced to strategies for solving general mental calculations. There will also be a time to work in groups. Finally, we will also find time for logic games like BLOKUS and CLUE.

4-Middle	Advanced Lego Engineering	\$310
-----------------	----------------------------------	--------------

Wednesday 10:40am-11:50am

Taught by: **Sharon Foulger**

In a lab setting, Students will have the opportunity to explore building and coding moving creations using LEGO Boost. They may participate in a class build i.e. Amusement Park consisting of the LEGO Roller Coaster, Ferris Wheel and Carousel or similar themed kits.

K-High	Lunch Supervision	\$70
---------------	--------------------------	-------------

Wednesday 11:50am-12:30pm

Taught by: **A TEAM**

A time for students to get together to eat and play. Lunch is NOT provided by A TEAM.

A TEAM Class List

(Class prices for Spring 2020 session January - May)

K-1	Science	\$295
------------	----------------	--------------

Wednesday 12:30pm-1:30pm

Taught by: **Scott Gentile**

Fun, hands-on science lessons abound in this general science class! There will be plenty of Physics, Biology, and Ecology lessons, as well as a sprinkling of Chemistry and/or Geology lessons. Some classes will be partly or mostly outside. A brief scientific discussion and instructions will precede each lesson. "Classic" lessons may include owl pellets, fossils, insect study, buzz-offs, and active Ecology games. There will also be some "new" lessons to accommodate returning students. Come out and join us for some scientific fun!

2-5/6	Logic Reasoning and Math Puzzles	\$290
--------------	---	--------------

Wednesday 12:30pm-1:30pm

Taught by: **Jing Swales**

In this class, we will teach the process of using a rational, systematic series of steps based on sound mathematical procedures and given statements to arrive at a conclusion. We will offer a wide range of practice to improve students' various logic and reasoning, critical thinking, outside the box thinking, and problem solving skills. We will also solve fun math puzzles and brain teasers.

4-Middle	Geography-traveling with a map	\$200
-----------------	---------------------------------------	--------------

Wednesday 12:30pm-1:30pm

Taught by: **Mira Betlej**

In this class we will be using different types of maps to gather information. We will use compasses and make our own maps. We will travel the continents and the travelers will have a choice to stop in any country they choose and they will be encouraged to work on the project tied to that country. The project will give opportunity to work on a presentation skills in a safe and nourishing classroom environment.

A TEAM Class List

(Class prices for Spring 2020 session January - May)

4-Middle	Theater Time	\$340
-----------------	---------------------	--------------

Wednesday	12:30pm-1:30pm
------------------	-----------------------

Taught by: **Ilene Marks**

Improve confidence and communication skills by learning basic acting techniques, playing drama games, role playing and performing short skits with friends. Students will work on their level but must want to participate and act. Projects include making a commercial, create a sports and/or news broadcast and write a campaign supporting a cause. Fun while learning!

2-5/6	Kidz Entrepreneur 2	\$340
--------------	----------------------------	--------------

Wednesday	1:40pm-2:40pm
------------------	----------------------

Taught by: **Ilene Marks**

The creativity continues as students are encouraged to think bigger by developing their own business ideas, devising a business plan and implementing products and services. Activities include learning about the self-driving car industry, creating an earth friendly product using recyclables, and writing commercials. Students dig deeper into identifying expenses, inventory and logistics of starting a business. Projects always emphasize critical thinking, problem solving, team building and public speaking. Classes enhance self-confidence, social interaction, brainstorming and creativity. Fun, very unique!

2-5/6	Social and Interactive Games	\$290
--------------	-------------------------------------	--------------

Wednesday	1:40pm-2:40pm
------------------	----------------------

Taught by: **Jing Swales**

This class will organize and provide students opportunities, through mental and physical games and activities, to build on and reinforce their positive social interaction, behavior, and overall well-being. Students will have fun together, while learning and applying important social skills such as kindness, consideration, respect, sharing, and fairness.

The games will include but not limited to: team building games, cooperative games, party games, classic and current board games (students can decide among those provided or their own), role playing games, show and tell, improv, celebrations, ...etc

A TEAM Class List

(Class prices for Spring 2020 session January - May)

K-High	Games!	\$295
---------------	---------------	--------------

Wednesday	2:50pm-3:50pm
------------------	----------------------

Taught by: **Ann Wolfe**

We will play and learn a variety of games--card games, board games, and more! Kids get to learn how to play by the rules, improve their strategy, recognize how much chance and skill are involved in each game, learn what it means to be a good sport, and have FUN! In this multi-age class, we can have several games running at the same time for different levels.
