

A TEAM Class List

(Class prices for Spring 2020 session January - May)

K-1	WAIT LIST Music exploration	\$250
------------	------------------------------------	--------------

Tuesday	9:20am-10:30am
----------------	-----------------------

Taught by: **Becky Beaudoin**

This K-1 class gives children an opportunity to explore all aspects of music, in a high energy, child friendly, age appropriate way. We will learn basic music theory. We will work on pitch by singing songs. We will learn rhythm through movement and games. And we will try instruments from the orchestra and around the world. The semester will end with a performance showing off our newly learned skills.

2-3	Science	\$290
------------	----------------	--------------

Tuesday	9:20am-10:30am
----------------	-----------------------

Taught by: **Scott Gentile**

Fun, hands-on science lessons abound in this general science class! There will be plenty of Physics, Biology, and Ecology lessons, as well as a sprinkling of Chemistry and/or Geology lessons. Some classes will be partly or mostly outside. A brief scientific discussion and instructions will precede each lesson. "Classic" lessons may include owl pellets, fossils, insect study, buzz-offs, and active Ecology games. There will also be some "new" lessons to accommodate returning students. Come out and join us for some scientific fun!

4-Middle	Advanced Lego Engineering	\$300
-----------------	----------------------------------	--------------

Tuesday	9:20am-10:30am
----------------	-----------------------

Taught by: **Sharon Foulger**

In a lab setting, Students will have the opportunity to explore building and coding moving creations using LEGO Boost. They may participate in a class build i.e. Amusement Park consisting of the LEGO Roller Coaster, Ferris Wheel and Carousel or similar themed kits.

A TEAM Class List

(Class prices for Spring 2020 session January - May)

4-High	Drawing Sketch and Pastels	\$390
---------------	-----------------------------------	--------------

Tuesday	9:20am-10:30am
----------------	-----------------------

Taught by: **Mr. Green**

Drawing is intense observation, without the ability to study an object, students will not be able to accurately draw the object. In the class students will receive instruction, demonstrations and opportunities to work with different types of paper surfaces and medium. Starting with basic concepts including negative space, line, form, and color theory, they will move on to practice techniques such as shading, texture, and perspective to add dimension and depth to their work.

K-1	Science	\$290
------------	----------------	--------------

Tuesday	10:40am-11:50am
----------------	------------------------

Taught by: **Scott Gentile**

Fun, hands-on science lessons abound in this general science class! There will be plenty of Physics, Biology, and Ecology lessons, as well as a sprinkling of Chemistry and/or Geology lessons. "Classic" lessons may include owl pellets, fossils, insect study, buzz-offs, and active Ecology games. There will also be some "new" lessons to accommodate returning students. Come out and join us for some scientific fun!

K-1	WAIT LIST Stories and Art	\$250
------------	----------------------------------	--------------

Tuesday	10:40am-11:50am
----------------	------------------------

Taught by: **Becky Beaudoin**

This K-1 class is all about stories, both time honored classics and new favorites. We will listen to stories, tell stories, sing songs, play cooperative games, and create art based on these stories. Children will be encouraged to bring items from home to tell their own stories about and even bring their favorite books to share. Through out the semester children will be improving their reading and public speaking skills, gaining social skills, increasing their vocabulary and creativity, and building friendships and a love of reading.

A TEAM Class List

(Class prices for Spring 2020 session January - May)

K-High	WAIT LIST In the Mud Room	\$425
---------------	----------------------------------	--------------

Tuesday	10:40am-11:50am
----------------	------------------------

Taught by: **Sheila Della Ratta**

Ceramics - hand building and sculpture

In this hand building and sculpture class your child will pound, pinch, roll, flatten, poke, tear, squeeze, coil, stretch, squash, twist, and bend clay to the content of their hands and heart. Your child will learn the ceramic process from forming, decorating, glazing, to firing pottery. They will learn skills and techniques to make their projects successful while cultivating a relationship with clay. We will practice mindful creativity while exploring foundational techniques that can be scaffolded into progressively more challenging projects. Ceramics nourishes a journey of patience, discipline and originality. I love working with children of all ages and helping them bridge their vision with a final product they can feel good about. All projects are fired in a kiln and returned to students, sometimes a few weeks later. \$40 materials fee payable on 1st day of class.

2-3	Lego Engineering	\$300
------------	-------------------------	--------------

Tuesday	10:40am-11:50am
----------------	------------------------

Taught by: **Sharon Foulger**

In a lab setting, Students will have the opportunity to explore building and coding moving creations using LEGO WeDo 2.0. They may participate in a class build of themed kits, i.e. Hidden Side, Harry Potter or Friends Amusement Park. Opportunities to build from their own imaginations are also available.

2-5/6	Target Dart Fun and Games	\$225
--------------	----------------------------------	--------------

Tuesday	10:40am-11:50am
----------------	------------------------

Taught by: **Tiffany Nyberg**

Run an obstacle course and hit the targets! Create a course for others to run. Work as a team or as an individual. Come have fun and get active together. This is a great way to work on hand eye coordination and reaction speed. Nerf guns will be used in this class.

A TEAM Class List

(Class prices for Spring 2020 session January - May)

4-Middle **WAIT LIST Geography-traveling with** **\$200**

Tuesday **10:40am-11:50am**

Taught by: **Mira Betlej**

In this class we will be using different types of maps to gather information. We will use compasses and make our own maps. We will travel the continents and the travelers will have a choice to stop in any country they choose and they will be encouraged to work on the project tied to that country. The project will give opportunity to work on a presentation skills in a safe and nourishing classroom environment.

K-High **Lunch Supervision** **\$70**

Tuesday **11:50am-12:30pm**

Taught by: **A TEAM**

A time for students to get together to eat and play. Lunch is NOT provided by A TEAM.

K-1 **Living History-Island Cultures** **\$290**

Tuesday **12:30pm-1:30pm**

Taught by: **Scott Gentile**

We will look at several different island cultures, possibly to include Japan, New Zealand, Jamaica, Cuba, Tonga, the Bahamas, and Hawaii! A variety of hands-on lessons may include Polynesian navigation, Samurais, Maori tattoos, the Tongan lafu game, and much more! Building, role-playing, making props, playing games, and having an end of semester feast are all on the agenda. Lessons will normally be held outside, with only the weather pushing us inside on occasion. A perfect class for both LH veterans and novices, and for history buffs and hisotry-phobes alike!

K-3 **WAIT LIST Jr. Lego Engineering** **\$300**

Tuesday **12:30pm-1:30pm**

Taught by: **Sharon Foulger**

Students will have the opportunity to pick from several different Lego kits and will be given time to play and interact with their completed builds. As the semester progresses, students may have the opportunity to explore building and coding moving creations using LEGO WeDo 2.0 or they may participate in a class build of themed kits. Opportunities to build from their own imaginations are also available.

A TEAM Class List

(Class prices for Spring 2020 session January - May)

4-Middle	WAIT LIST ESSENTIAL LOGIC	\$200
-----------------	----------------------------------	--------------

Tuesday	12:30pm-1:30pm
----------------	-----------------------

Taught by: **Mira Betlej**

The purpose of this class is to enrich conceptual and applied math skills in a way that is tailored for individual learning. We will solve various problems by the process of elimination. We will figure out what, where, who and how in the word-based logic puzzles using a list of clues, and we will work on building the ability to think through increasingly complex problems, while being introduced to strategies for solving general mental calculations. There will also be a time to work in groups. Finally, we will also find time for logic games like BLOKUS and CLUE.

4-High	Sports and Games	\$200
---------------	-------------------------	--------------

Tuesday	12:30pm-1:30pm
----------------	-----------------------

Taught by: **Tiffany Nyberg**

Get a taste of some fun sports. We will play several different sports during the semester. The students will help determine the sport. There are several to choose from..... Soccer, badminton, volleyball, ultimate Frisbee, flag football and more... Fun games too! Good sportsmanship will be emphasized. This is also a great class to get to know other students at A TEAM.

A TEAM Class List

(Class prices for Spring 2020 session January - May)

K-1 **Jr. Lego Engineering** **\$300**

Tuesday **1:40pm-2:40pm**

Taught by: **Sharon Foulger**

Students will have the opportunity to pick from several different Lego kits and will be given time to play and interact with their completed builds. As the semester progresses, students may have the opportunity to explore building and coding moving creations using LEGO WeDo 2.0 or they may participate in a class build of themed kits. Opportunities to build from their own imaginations are also available.

2-5/6 **Public Speaking - Movie Monologues** **\$330**

Tuesday **1:40pm-2:40pm**

Taught by: **Ilene Marks**

Practice, practice, practice is the only way to build self-confidence with this important skill. Students enhance speaking skills with peers in a comfortable, comical and nurturing environment. Activities include interviews, poems, jokes, tongue twisters and practicing movie monologues from Disney and other classics. Students learn the basics how to prepare and structure an effective speech and learn tips how to articulate that information clearly. Working on posture, eye contact, body language, volume and making the students feel comfortable. Class designed for new and current Public Speaking students. Lessons last a lifetime.

2-5/6 **WAIT LIST Jr. Chefs in Action** **\$450**

Tuesday **1:40pm-2:40pm**

Taught by: **Rachna Patel**

Did someone say food?! Getting kids involved in this class to make delicious fun recipes will keep both their hands and brains busy! Kids will learn multiple skills through this class, including but not limited to: accurately measuring dry and wet ingredients, fractions, reading and interpreting nutrition labels, and much more. Students will learn various dishes that they will be able to prep on their very own. Cooking skills will also help students boost their self-esteem and teach them the importance of following directions. Speaking of directions, students will need to be cautious on how they instruct me (Mrs. Rachna) on how to make a peanut butter and jelly sandwich to avoid a major PB&J catastrophe! LOL! For more info, email patelrp1986@gmail.com

A TEAM Class List

(Class prices for Spring 2020 session January - May)

2-5/6	Living History-Island Cultures	\$290
--------------	---------------------------------------	--------------

Tuesday	2:50pm-3:50pm
----------------	----------------------

Taught by: **Scott Gentile**

We will look at several different island cultures, possibly to include Japan, New Zealand, Jamaica, Cuba, Tonga, the Bahamas, and Hawaii! Lessons may include Polynesian Navigation, Samurais, Mauri carving and tattoos, and the Tongan lafo game. As always with Living History, the lessons will be very hands-on, and will include plenty of building and role-playing opportunities, sometimes within the same lesson. Lessons will normally be held outside, with the occasional indoor craft, due to weather. A perfect class for both LH veterans and novices, and for history buffs and hisotry-phobes alike!

K-High	Private Guitar Lessons	\$750
---------------	-------------------------------	--------------

Tuesday	TBD
----------------	------------

Taught by: **Tim Schwalbach**

This class is for any student interested in learning the guitar, no matter what age and level. It will cover all the fundamentals of music and the guitar, such as how to read standard music notation and tablature as well as different rhythm patterns while playing chords and learning some music theory along the way. And of course songs too. In addition to songs in the method book that I'll provide, song requests and recommendations are encouraged because I want the student to have fun and be motivated to learns songs he/she would like to play. Ultimately it will be a friendly, encouraging and fun environment to learn the guitar. There is no prerequisite or prior knowledge/experience required. Owning or having a guitar is recommended.

K-1	Art Drawing	\$390
------------	--------------------	--------------

Wednesday	9:20am-10:30am
------------------	-----------------------

Taught by: **Mr. Green**

A great class for the young budding artist. Lots of room for visual exploration imagination and creativity . I will be asking students for subject matter ideas. We will learn to draw two and three dimensional shapes and improve motor skills
Attention will be given to first draw soft and light, this will help in their ability to edit the needed changes. The students will follow my
step by step instructions to complete the desired drawing. The last half of the class I will instruct on coloring and adding their personal touches to their individual pieces.

A TEAM Class List

(Class prices for Spring 2020 session January - May)

K-3	WAIT LIST A Taste of Geography	\$275
------------	---------------------------------------	--------------

Wednesday 9:20am-10:30am

Taught by: **Tiffany Nyberg**

Learn about the world with your ears, eyes, mouth and hands. We will travel the world one continent at a time. At each stop we will learn about 1-2 countries by listening to music, finding it on the map, tasting a food and playing a game. Important facts and information about each country will be taught.

K-5/6	Hip-Hop/Street Dance Level 1	\$300
--------------	-------------------------------------	--------------

Wednesday 9:20am-10:30am

Taught by: **Alex Flores**

Come learn the fundamentals of hip-hop/street-dance: popping, locking and breaking. We will be learning the moves/vocabulary along with the dance history and culture. Class is filled with fun exercises and activities to help spark their creativity and build community within the classroom! By the end of the course we will be showcasing a routine. Children ages 5-8 or those with little to no dance experience will fit right into our level 1 class. Please bring loose fitted clothes (sweats, shorts, t-shirt, and tennis shoes) and some water. Feel free to email Alex at princealifreez@gmail.com if you have any questions!

K-1	Theater Games	\$350
------------	----------------------	--------------

Wednesday 10:40am-11:50am

Taught by: **Ashley Hinson**

Life skills taught through theater skills. Theater skills taught through collaborative games and exercises. This class helps to develop listening, focus, collaboration, and coordination, while encouraging creativity, energetic presence, and thinking on ones feet. Our focus will be Theater Games and Improvisation, with the intent to challenge students and build on emerging skills with each lesson. This class is great for building confidence and learning how to work as a team!

A TEAM Class List

(Class prices for Spring 2020 session January - May)

K-1	Ecology Science Nature Detectives	\$320
------------	--	--------------

Wednesday 10:40am-11:50am

Taught by: **Marisa Bean**

"Participate in Project-based, Ecology Science Investigations lessons that are engaging and fun! NEW TOPICS for the SPRING with lots of focus on Garden Science lessons from Life Lab! Investigate and learn in a hands-on, child led, exploration rich, play based, engaging outdoor class. We will learn, explore, observe, journal, craft, create and investigate our earth and our lands, Native cultures, and influential people involved in the preservation of wild places, native plants, native wildlife, water, atmosphere, energy, and human issues, as well as stewardship topics, in our local lands and beyond. We will provide a direct, safe animal encounter each week, with some combination of reptiles, amphibians, insects, arthropods, mammals from our home zoo!"

2-3	Author's Workshop	\$275
------------	--------------------------	--------------

Wednesday 10:40am-11:50am

Taught by: **Beth Hankoff**

Learn how to write a bold beginning, a marvelous middle, and an exciting ending. Then put them all together to create a great story! Students will learn the parts that make up a story, and how to use the writing process to go from idea to finished product. This is a low-pressure class where the emphasis is on creativity and a positive experience with writing.

2-Middle	The Pleasures of Painting	\$370
-----------------	----------------------------------	--------------

Wednesday 10:40am-11:50am

Taught by: **Mr. Green**

This class is an introduction to different types of painting. There will be instruction and demonstrations with color theory, watercolor, acrylic paint and possibly airbrushing. We will work different style of painting such as abstract and realistic. Subject matter will include still-life , landscapes and clothed figures. A \$25.00 materials fee is not included in the price of the class.

A TEAM Class List

(Class prices for Spring 2020 session January - May)

K-3	ATOM Science Grades K-3	\$375
------------	--------------------------------	--------------

Wednesday	12:30pm-1:30pm
------------------	-----------------------

Taught by: **Leslie Herleikson**

A.T.O.M. Science Club is an exciting adventure club where members discover the incredible connections among atoms, molecules, living organisms, and our universe. Through hands-on experiments, group discussions and activities, visual aids, and field trips we study chemistry (atoms), physics (energy and matter and how they interact), biology (life study), and astronomy (the universe). By developing this scientific foundation early in life, members build a solid understanding of science and a love of learning that will stay with them for a lifetime.

To learn more about A.T.O.M. Science Club, and it's 20 years of adventures, visit the website www.atomscienceclub.com.

2-5/6	D.A.C. Draw Amazing Cartoons	\$370
--------------	-------------------------------------	--------------

Wednesday	12:30pm-1:30pm
------------------	-----------------------

Taught by: **Mr. Green**

The students will begin by creating a cartoon charactermaybe someone they know or someone made up. We will give life to the character through the surrounding, story, mapping a plot. Drawing storyboards. Mastering expressive typography. In this fun class, students will learn the complete set of techniques needed to illustrate compelling characters and stories, just like the ones in their favorite graphic novels. The emphasis will be on humor and positive attitudes, nothing inappropriate.....my rule is if it's okay with your Mom it's okay with me.

4-5/6	Theater Games & Acting	\$350
--------------	-----------------------------------	--------------

Wednesday	12:30pm-1:30pm
------------------	-----------------------

Taught by: **Ashley Hinson**

Thursday	9:20am-10:30am
-----------------	-----------------------

Taught by: **Scott Gentile**

Fun, hands-on science lessons abound in this general science class! There will be plenty of Physics, Biology, and Ecology lessons, as well as a sprinkling of Chemistry and/or Geology lessons. Some classes will be partly or mostly outside. A brief scientific discussion and instructions will precede each lesson. "New" lessons may include food science, "grossology", and human anatomy topics, in addition to some old "classics," such as fossils and active Ecology games. Come out and join us for some scientific fun!

4-High	Hip-Hop/Street Dance Level 3	\$300
---------------	-------------------------------------	--------------

Thursday	9:20am-10:30am
-----------------	-----------------------

Taught by: **Alex Flores**

Come learn the fundamentals of hip-hop/street-dance: popping, locking and breaking. We will be learning the moves/vocabulary along with the dance history and culture. This class is geared towards children who want to build skills in learning choreography and free-styling. By the end of the course we will be showcasing a routine. Children ages 9+ or those with intermediate-advance dance experience will fit right into our level 3 class. Please bring loose fitted clothes (sweats, shorts, t-shirt, and tennis shoes) and some water. Feel free to email Alex at princealifreez@gmail.com if you have any questions!

4-High	High School Physics B	\$620
---------------	------------------------------	--------------

Thursday	9:20am-11:50am
-----------------	-----------------------

Taught by: **Kevin King**

This course (along with the 1st semester course) meets the a-g requirements for high school physics. We will continue where we left off, covering new topics like: heat, laws of thermodynamics, fluids, waves, electricity, magnetism, and special relativity.

Prerequisites: Algebra 1 and Conceptual Physics A

A TEAM Class List

(Class prices for Spring 2020 session January - May)

K-1	Living History-Ancient Egypt/China	\$290
------------	---	--------------

Thursday	10:40am-11:50am
-----------------	------------------------

Taught by: **Scott Gentile**

A look at two ancient cultures that contributed many great inventions to the world, lessons may include: mummy and sarcophagus-making, toothpaste-making, Egyptian mythology role-play, Egyptian make-up, Qing Ming Festival, "fireworks", kite-flying, paper-making, Dynasty role-plays, and much more! Come out and enjoy this Living History topic that hasn't been offered in years!

2-5/6	Ecology and Eco Science	\$320
--------------	--------------------------------	--------------

Thursday	10:40am-11:50am
-----------------	------------------------

Taught by: **Marisa and Team**

Participate in Project-based, Ecology and Eco Earth Science lessons that are engaging and fun!
NEW TOPICS for the Spring!

This combo aged class will meet the needs of your learner in a fun, hands-on, child led, exploration rich, play based, engaging outdoor class.

Students will investigate, learn and discover that, collectively, they can make a difference by taking a conscious and active role in protecting nature through engaging Eco Earth Science Lessons!

We work in small groups, using critical thinking skills, thinking creatively to choose which environmental science issues they feel passionately about and to inspire them with lively discussions and information to support their investigations. We help the student engage and dive deeper with FunWork videos sent to the parent each week, for more on our in class investigations to explore at home!

We provide a direct, safe animal encounter with some combination of reptiles, amphibians, insects, arthropods, and mammals.

4-Middle	Lego Robotics	\$340
-----------------	----------------------	--------------

Thursday	10:40am-11:50am
-----------------	------------------------

Taught by: **Sharon Foulger**

In a lab setting, Students working on their own or in teams of 2 will build a basic robot and through a series of self-paced lessons learn to program the robot to move, avoid collisions, and follow a line. Students will have the opportunity to create their own robot and have the robot accomplish a series of tasks, navigate a road race and compete in a sumo challenge. Students will also have the chance to explore complex builds and programs provided by LEGO.

A TEAM Class List

A TEAM Class List

(Class prices for Spring 2020 session January - May)

4-5/6 Spanish \$300

Thursday 12:30pm-1:30pm

Taught by: **Patricia Christensen**

Spanish Class by Experienced Native Speaker - 4th-6th grades A play-based approach to learning a foreign language. Spanish instruction through a mix of Games, Songs, Dialogue, Storytelling, Skits, and Recipes - upper elementary students will explore and learn the basics of conversational Spanish. In this weekly class, students will learn basic vocabulary, introduction to simple verbs, as well as foundational phrases. This engaging and playful course will give students a good foundation of the Spanish language. Instructor: Vendor - Spanish Made Easy For Kids and Teens Patricia Costa Christensen, MA - Ocean Grove Vendor

K-3 Crunchin' #'s With Math Games \$350

Thursday 1:40pm-2:40pm

Taught by: **Rachna Patel**

Students will be actively involved in learning - and will have a blast! This will be an exciting class where students will learn critical thinking and mathematical reasoning in the context of games, stories and puzzles. You will soon notice how your kiddos think and respond to new ideas! My goal is to provide repeated opportunities for students to play games, and then let the mathematical ideas emerge as they notice new patterns, relationships, and strategies.

K-3 Spanish \$300

Thursday 1:40pm-2:40pm

Taught by: **Patricia Christensen**

"Spanish Class by Experienced Native Speaker - 1st-3rd grades A play-based approach to foreign language. Spanish instruction through a mix of Games, Songs, Storytelling, Skits, and Recipes. In this weekly class, lower elementary students will learn Basic vocabulary , and Basic phrases . This engaging and playful course will give young learners all they need to grasp the basics of the Spanish Language.

Instructor: Vendor - Spanish Made Easy For Kids and Teens - Patricia Costa Christensen, MA - Ocean Grove Vendor "

A TEAM Class List

(Class prices for Spring 2020 session January - May)

2-5/6	Kidz Entrepreneur Part 2	\$355
--------------	---------------------------------	--------------

Thursday	1:40pm-2:40pm
-----------------	----------------------

Taught by: **Ilene Marks**

The creativity continues as students are encouraged to think bigger by developing their own business ideas, devising a business plan and implementing products and services. Activities include learning about the self-driving car industry, creating an earth friendly product using recyclables, and writing marketing material and commercials. Students dig deeper into identifying expenses, inventory and logistics of starting a business. Projects always emphasize critical thinking, problem solving, team building and public speaking. Classes enhance self-confidence, social interaction, brainstorming and creativity. Fun, very unique! Note: If student did not take KE1 then must be 4th grade+.

4-Middle	Enviro and Eco Earth Science	\$315
-----------------	-------------------------------------	--------------

Thursday	1:40pm-2:40pm
-----------------	----------------------

Taught by: **Marisa and Team**

We help students discover that, collectively, they can make a difference by taking a conscious and active role in protecting nature through engaging Enviro and Eco Earth Science Lessons! We work in small groups, using critical thinking skills, thinking creatively to choose which environmental science issues they feel passionately about and to inspire them with lively discussions and information to support their investigations. We provide engaging in sustainable and self sufficient science lessons! We keep our focus positive and focused on environmental stewardship, the science behind nature and our earth and all of its organisms! We Lead students to collectively act on their concerns and passions through various forms of environmental stewardship for our class base site and beyond! Participate in Project-based, Conservation-related Science Lessons that are engaging and fun!

K-3	Games!	\$325
------------	---------------	--------------

Thursday	2:50pm-3:50pm
-----------------	----------------------

Taught by: **A TEAM**

We will play and learn a variety of games--card games, board games, and more! Kids get to learn how to play by the rules, improve their strategy, recognize how much chance and skill are involved in each game, learn what it means to be a good sport, and have FUN!

(Class prices for Spring 2020 session January - May)

4-Middle	Playwriting--Short Form	\$290
-----------------	--------------------------------	--------------

Thursday	2:50pm-3:50pm
-----------------	----------------------

Taught by: **Scott Gentile**

We will be exploring the basic elements of playwriting, and will be writing short (mostly 10-minute) plays, some generated by writing prompts. Much of the writing will be expected to be done outside of class; in class, we will take turns reading/"performing" each others' plays, and offering each other constructive feedback for edits and improvements. This is a fun way to jump into the world of playwriting!

4-High	Private Guitar Lessons	\$700
---------------	-------------------------------	--------------

Thursday	TBD
-----------------	------------

Taught by: **Jordan Wolfe**

One on one guitar lessons for students at any level. Private lessons give you the attention you need to learn at your own pace with music you enjoy.

Half hour lessons. Contact for available times. Lessons available Thursdays at the San Jose campus as well as other times.

Ages 8 and up.

Students are required to have a guitar, music stand, tuner, metronome, capo, and picks. Additional materials and literature may be required.
