BEGINNER'S CLASS

Anatomy with a Fun Twist **Middle-High** **Rachna Patel** **Mon - Thur 11:00am-12:00pm** **\$80**
Campus San Jose

How well do you know your body? Feeling tired? Hungry? Aching? Being familiar with the Human Anatomy is very important for all of us. Dress up in doctor outfits! Wear a stethoscope (provided)! Grasp a better understanding of how and why our body does what it actually does while performing intriguing hands-on activities related to each!

Also, do you think you can assemble a skeleton together if all the bones were taken apart? What tests do you think you can pass??? Hearing Test? Brain/Vision Coordination Test? Balance Test? Memory Test? Come and find out through some fun and interactive games!

Drawing with Dimension **2-3** **James Green** **Mon - Thur 12:30pm-1:30pm** **\$80**
Campus San Jose

Through step-by-step instruction, students will learn how to use simple shapes to create drawings of everyday objects. After mastering basic concepts including line, form, and color, they will move on to practice techniques such as shading, texture, and perspective to add dimension to their work. All the while, the young artists will hone their fine motor skills and enhance their work with vibrant imagination.
